TRAN QUANG VINH

Head of Planning

FP&A • Data Analytics • Agentic AI • Retail

CAREER OBJECTIVE

Grow into a broader finance and strategy leadership role in retail, building planning teams where finance, data and AI work as one system to drive profitable growth.

PROFESSIONAL SUMMARY

Nearly 9 years in planning, including 6 years in multi store retail. Head of Planning at a bookstore chain of around 50 stores, responsible for budget, business plan, forecasting, store P&L, network development and the data and BI function. Combines a Chief Accountant foundation with SQL, Power BI and Agentic AI to turn data into well supported decisions.

in planning	stores	projects appraised	self service data

WORK EXPERIENCE

PHUONG NAM RETAIL CO., LTD (PNC GROUP)

Bookstore and lifestyle retail, around 50 stores

Head of Planning — **03/2026 to Present**

Lead the Planning Department, reporting to the CEO and working closely with the COO; own FP&A, network development and the data and BI function.

- Lead the annual budget, monthly business plan and rolling forecast by category, region and store; review store P&L and prepare full year forecasts as the baseline for next year
- Built a bottom up daily revenue plan that cascades monthly targets to every store, category and day
- Rebuilt remaining year targets for all categories within 5 working days after a network restructuring
- Prepare business cases for openings, relocations, renewals and closures; modelled early exit costs (rent penalty, deposit, unamortised fit out, lost profit) to guide decisions
- Support rent and space negotiations with malls and landlords; priced F&B partnerships in flagship stores at 50% or more above current rent
- Connected airport outlet sales to landlord revenue systems and relaunched an airport outlet on schedule
- Launched Agentic AI on Power BI, converting about 70% of ad hoc data requests into self service and saving around 40 hours a month
- Built an internal web app ecosystem: task tracking, reporting, data lookup and an AI chatbot

SELECTED PROJECTS

Agentic AI on Power BI: AI agents answer business questions in plain language, write DAX, explain variances and send scheduled KPI alerts.

Planning web app ecosystem: Task tracking, reporting, data lookup and an AI chatbot on React, Supabase and Netlify.

Store exit cost model: Compares early closure with trading to lease expiry to support network restructuring.

WORK EXPERIENCE (CONTINUED)

Investment Planning Specialist — 05/2021 to 02/2026

Planning and Investment Department, covering business planning, data management, investment and real estate.

- Built and managed the company business plan: process, templates, target setting and in year revisions
- Moved reporting from manual Excel to a SQL Server and Power BI platform with 20+ management reports, including a store P&L dashboard for the CEO
- Managed the business database, access rights and data security, and supplied data to all departments
- Appraised 20+ new store, relocation, refurbishment, bookcafe and warehouse projects and tracked their performance after opening
- Managed the store lease portfolio: new contracts, renewals, subleases, landlord negotiations and handover on closure
- Prepared periodic and ad hoc reports for city departments, the Book Street management board and airport authorities
- Introduced R80, R20, R0 and RNEW SKU ranking reports used weekly by category teams for buying and allocation
- Analysed inventory, stock days, out of stock and overstock risks, and proposed transfers and clearance
- Contributed to the department charter and organisation structure

General Planning Officer — 10/2020 to 04/2021

- Helped build annual and monthly business plans for the retail network; tracked and reported daily, weekly and monthly results; automated reporting with Excel, VBA, SQL and Power BI

HOA PHAT GARMENT — *Garment manufacturing*

Production Manager — 04/2020 to 09/2020

- Built company wide production plans as soon as orders were confirmed; converted orders into material requirements and line schedules
- Balanced line capacity against volume and deadlines; coordinated merchandising, purchasing, cutting, sewing, QC and warehouse for on time delivery
- Set up planning templates and progress reports giving management one view of all open orders

VIET TIEN GARMENT CORPORATION — *Export garment manufacturing*

Production Planning Officer — 11/2017 to 03/2020

- Planned export orders end to end: material requirements, sourcing, contracts, production scheduling, customs documents and shipment
- Monitored progress at the factories; helped build technical parameters and standards for new products
- Kept complete order files and worked with merchandising, technical and QA teams to keep deliveries on schedule

EDUCATION

Bachelor of Business Administration — 2013 to 2017
University of Economics Ho Chi Minh City (UEH)

ACTIVITIES AND LEARNING

- Agentic AI for business course (2026)
- Applying AI to reporting and document workflows in the Planning Department
- Market and competitor research on Vietnam's bookstore sector
